

# **FOR HIS PLEASURE**

© Copyright, R. Arnold 2004

**Well, I'm cruising over the reef, and into a whole new world  
In a rainbow of different colors, of water, fish and sand and coral  
And the fish I see surprise me, the way they live their lives  
Some are lazy, others goofy, some just working to get by  
But some seem to know the reason  
They live in this big sea  
And it makes me pause, to catch my breath  
When their song reaches me.**

**Chorus:       Praise you Lord, you bring the sunrise  
                  Praise you Lord, you bring the night  
                  Master and Creator  
                  We see your love, to the left and right  
                  We're living by your mercy  
                  We're living by your grace  
                  And it is for your pleasure  
                  That we are here in this place**

**I awake to see the hummingbird, drink from the morning dew  
And the whole wide world is jumpin', ready to start the day anew  
The animals and plants can't talk  
But they show us nonetheless  
There's a Master over the universe**

**Who has made us and counts us blessed**

**They seem to know the reason**

**They can wear their lineage proud**

**For if they didn't praise God's name**

**The rocks would shout out loud.**

**chorus: Praise you Lord, you bring the summer**

**Praise you Lord, you bring the fall**

**Master and Creator**

**You give us breath, you made us all**

**We're living by your mercy**

**We're living by your grace**

**And it is for your glory**

**We worship you in this place**

**break: And after all the ways God's touched me**

**Through all that I can see**

**I wonder what I should reflect**

**When others look at me**

**Well, I'm cruisin' down the street, and into a whole new world**

**In a rainbow of different colors, of air & people & homes & souls**

**And the folks I see surprise me, the way they live their lives**

**Some are lazy, others goofy, some just working to get by**

**Some seem to know the reason**

**They're in this land above the sea**

**And together we can share God's love**

**They way god intends it to be.**

**chorus: Praise you Lord, you bring the sunrise**

**Praise you Lord, you bring the night**

**Master and Creator**

**We see your love to the left and right**

**We're living by your mercy**

**We're living by your grace**

**And it is for your pleasure**

**That we are here in this place**

**And it is for your glory**

**That we worship you in this place**

**It is for your honor and glory**

**That we are here in this place**
